CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

### GLOSSARY OF TERMS

Term	Definition
ADR	American Depositary Receipt
AESA	Related party A-Evangelista S.A.
AFIP	Argentine Tax Authority
Associate	Company over which YPF EE has significant influence as provided for in IAS 28
BNR	BNR Infrastructure Co-Investment Limited
CAEE	Electric Energy Supply contract
CAMMESA	Compañía Administradora del Mercado Mayorista Eléctrico S.A.
CDS	Joint Venture Central Dock Sud S.A.
CGU	Cash Generation Unit
CNV	Argentine Securities Commission
COD	Respect to a thermal Power Plant, the commercial operation date
Energía Base	Power generation from SEE Resolution 440/2021 and earlier
ENRE	National Regulatory Entity of Electricity
EUR - €	Euro
FACPE	Argentine Federation of Professional Councils of Economic Sciences
FONINVEMEM	Funds of Necessary Investments that allow the Electric Energy Supply in the Wholesale Electricity Market
GE	General Electric Corporation, Inc., or any of its subsidiaries and/or affiliates
GE EFS	GE EFS Power Investments B.V., an affiliate of GE
Group	YPF EE and its subsidiaries
GW	Gigawatts
GWh	Gigawatts per hour
IAS	International Accounting Standard
IASB	International Accounting Standards Board
IDS	Joint Venture Inversora Dock Sud S.A.
IFRIC	International Financial Reporting Standards Committee
IFRS	International Financial Reporting Standard
IGJ	Argentine Superintendence of Corporations
CPI	Consumer Price Index (“IPC” for its acronym in Spanish)
Joint Venture	Company jointly owned by YPF EE as provided for in IFRS 11
LGS	Argentine General Corporations Act No. 19,550 (T.O. 1984), as amended
Loma Campana I	Loma Campana I thermal power plant located in the district of Añelo, Province of Neuquén.
Loma Campana II	Loma Campana II thermal power plant located in the district of Añelo, Province of Neuquén.
Luz del León	Subsidiary Luz del León S.A.
MATER	Renewable energy forward market
MEM	Wholesale Electricity Market
MW	Megawatts
MWh	Megawatts per hour
NO	Negotiable Obligations
OPESSA	Related party and non controlling interest Operadora de Estaciones de Servicios S.A.
PEN	National Executive Branch
PPA	Capacity and/or power purchase agreements
SADI	Argentine Interconnection System
SE	Secretariat of Energy
SEE	Secretariat of Energy Electric
SGE	Government Secretary of Energy
SIC	Standing Interpretation Committee
Subsidiary	Company controlled by YPF EE in accordance with the provisions of IFRS 10.
US\$	US dollars
VAT	Value added tax
Y-GEN	Subsidiary Y-GEN Eléctrica S.A.U. (previously Y-GEN ELÉCTRICA S.R.L.)
Y-GEN II	Subsidiary Y-GEN Eléctrica II S.A.U. (previously Y-GEN ELÉCTRICA II S.R.L.)
Y-GEN III	Subsidiary Y-GEN Eléctrica III S.R.L.
Y-GEN IV	Subsidiary Y-GEN Eléctrica IV S.R.L.
YPF	YPF Sociedad Anónima
YPF EE or the Company	YPF Energía Eléctrica S.A.
YPF EE Comercializadora	Subsidiary YPF EE Comercializadora S.A.U.
WPI	Wholesale internal Price index (“IPIM” for its acronym in Spanish)

English translation of the separated financial statements originally filed in Spanish with the Argentine Securities Commission (“CNV”). In case of discrepancy, the separated financial statements filed with the CNV prevail over this translation.

<b>Total</b>		<b>2,360</b>		

(1) Part of Tucumán Generation Complex.

(2) Not connected to SADI.

(3) Steam sales are contracted with YPF.

(4) It represents our indirect participation of 30% in Central Dock Sud through Inversora Dock Sud S.A., that has a Combined Cycle with an installed capacity of 797.5 MW and two Open Cycle turbines with an installed capacity of 36 MW each, in addition to a participation of 1.4% in Termoeléctrica San Martín and Termoeléctrica Manuel Belgrano.

(5) Resolution No. 21/2016.

(6) Distributed self-generator.

(7) This Wind Farm’s generation is under 10 PPA contracts with the private sector. The term of these contracts have effectiveness up to 21 years.

(8) Between May and the beginning of June, CAMMESA granted the COD ,in stages, to achieve the full commercial operation of the plant.

The Group’s generation capacity, at the date of issuance of these consolidated financial statements, represents 5.6% of the installed capacity, including our interest in Central Dock Sud, and 6.9% of the energy demanded in Argentina, according to information published by CAMMESA.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission (“CNV”). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

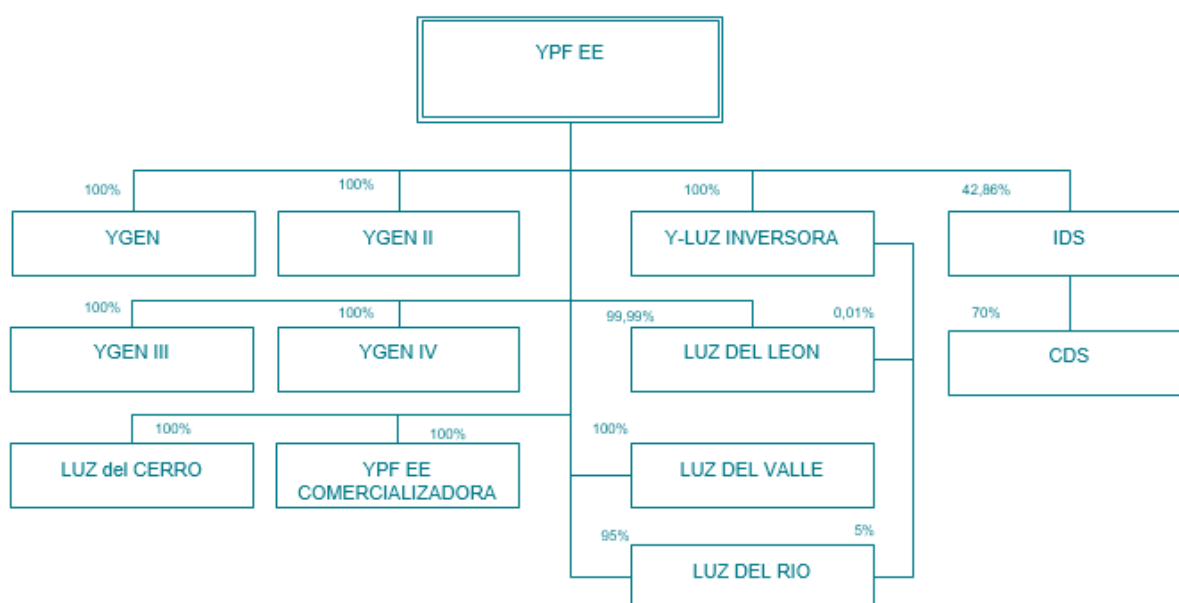

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

Additionally, the Group has the following project under construction:

Power Plant	Location (Province)	Installed Capacity (MW)	Buyers	Technology
Cañadón León Wind Farm	Santa Cruz	122	CAMMESA / MATER (YPF)	Wind Farm
<b>Total</b>		<b>122</b>		

**Structure and organization of the economic group**

The following chart shows the organizational structure, including the main companies of the Group, as of June 30, 2021:

As of June 30, 2021 the Group had a negative working capital of 7,768,460, as a consequence of being in the process of construction or recent completion of the wind farms and thermal plants related to the projects detailed in Note 27 of the annual consolidated financial statements. Likewise, as mentioned in Note 17, YPF Luz managed to refinance the 60% of its maturity required by the regulations in force in relation to Class I Negotiable Obligations, accepting all the offers of the Par option, and 83.16% of new cash offers received. There was 45.3% adherence for the Par Option that proposed to refinance 100% for two years with the same conditions as the previous Negotiable Obligation and additionally there were orders for US\$ 17.6 million in cash offered to subscribe the new Negotiable Obligation for two years (from which were accepted orders by US\$ 14.7 million). Notwithstanding this, the Group has different sources of financing in case it is necessary to have additional funds to meet its short-term needs.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

## 2. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 2.1. Basis of presentation

The condensed interim consolidated financial statements ("interim financial statements") of YPF EE for the six-month period ended June 30, 2021, are presented in accordance with IAS 34 "Interim Financial Reporting". These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements of the Group as of December 31, 2020 ("annual consolidated financial statements") prepared in accordance with IFRS as issued by IASB and interpretations issued by the IFRIC.

Additional disclosures required by the LGS and/or CNV regulations have been included with the only purpose of complying with such regulatory requirements.

These interim financial statements were approved by the Board of Directors' meeting and authorized to be issued on August 9, 2021.

These interim financial statements for the six-month period ended June 30, 2021 are unaudited. The Company's Management believes that they include all necessary adjustments to reasonably present the results of each period on a basis consistent with the audited annual consolidated financial statements. Net income for the six and three-month periods ended on June 30, 2021 do not necessarily reflect the proportion of the Group's full-year income.

### 2.2. Summary of significant accounting policies

The most significant accounting policies are described in Note 2.3 to the annual consolidated financial statements.

The accounting policies adopted for the preparation of these interim financial statements are consistent with those used in the preparation of the annual consolidated financial statements.

Likewise, are consistent with those used in the preparation of the interim financial statements as of June 30, 2020, except for the following:

#### ***Presentation of commercial interests in the statement of comprehensive income:***

The Company's Management understands that interest for late payment in the cancellation of trade receivables of CAMMESA, provide relevant information on the operation and operating cash flows of the business, rather than the Company's financial performance and, therefore, since the fourth quarter of 2020, they are presented within the caption "Other operating results, net" of the statement of comprehensive income and as net cash flow from operating activities in the statement of cash flow. Management considers that this presentation better reflects the impacts of the operating cycle, allowing a consistent presentation together with other expenses already disclosed under operating results, particularly considering the current context that deepened the delay in the payment terms to electricity generators and distributors. Consequently, the figures corresponding to commercial interests presented in a comparative manner were reclassified from the caption "Financial results, net" to the caption "Other operating results, net" for 281,747, in order to maintain consistency with the figures for this period.

### 2.3. Functional and presentation currency

As mentioned in Note 2.3 to the annual consolidated financial statements, YPF EE has defined the US dollar as its functional currency. Additionally, according to CNV Resolution No. 562, YPF EE must present its financial statements in Argentine pesos.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

YPF LUZ

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

Assets and liabilities in functional currency have been converted into the presentation currency using the following exchange rates, which arise from the average of the buyer and seller from Banco de la Nación Argentina:

	06.30.2021	12.31.2020
Argentine peso (ARS)	95.62	84.05

#### 2.4. Judgements, significant accounting estimates and assumptions

The preparation of the Group's consolidated financial statements requires Management to make significant estimates and assumptions that affect the recorded amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent assets and liabilities as of the end of each period. In this sense, the uncertainties related to the estimates and assumptions adopted could give rise in the future to final results that could differ from those estimates and may require significant adjustments to the amounts of the assets and liabilities affected.

In preparing these interim financial statements, significant estimates and judgments were made by Management in applying the Group's accounting policies and the main sources of uncertainty were consistent with those applied by the Group in the preparation of the annual consolidated financial statements, which are disclosed in Note 2.4 to the annual consolidated financial statements about estimates and accounting judgements.

#### 2.5. IFRS issued

##### 2.5.1. New standards and interpretations issued by the IASB which are not effective as of June 30, 2021 and have not been early adopted by the Group

The new and / or modified standards and interpretations issued by the IASB and approved by the FACPCE but which are not effective on the date of issuance of these financial statements are listed below. In this sense, only the new and / or modified standards and interpretations that the Company reasonably foresees will be applicable in the future are indicated. In general, the Company intends to adopt these standards, as appropriate, when they become effective.

##### • **Amendments of limited scope to the IFRS**

The IASB issued a set of limited scope amendments to the IFRS on February 12, 2021.

The individual amendments are:

##### Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)

It amends IAS 1 in the following ways:

- An entity is now required to disclose its material accounting policy information instead of its significant accounting policies;
- several paragraphs are added to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material;
- the amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial;
- the amendments clarify that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and
- the amendments clarify that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

#### Definition of Accounting Estimates (Amendments to IAS 8)

The changes to IAS 8 focus entirely on accounting estimates and clarify the following:

- The definition of a change in accounting estimates is replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".
- Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty.
- The Board clarifies that a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors.
- A change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. The effect of the change relating to the current period is recognised as income or expense in the current period. The effect, if any, on future periods is recognised as income or expense in those future periods.

The amendments are all effective for annual reporting periods beginning on or after January 1, 2023 and earlier application is permitted.

The Company's Board of Directors anticipates that the application of the aforementioned amendments will not have a significant impact on the financial statements of the Group.

#### • **Deferred tax related to assets and liabilities arising from a single transaction (Amendments to IAS 12)**

On May 7, 2021 was issued an amendment to IAS 12 "Income Tax" related to deferred tax from assets and liabilities arising from a single transaction.

The IFRS Interpretations Committee received a submission about the recognition of deferred tax in relation to leases (when a lessee recognises an asset and a liability at the lease commencement) and decommissioning obligations (when an entity recognises a liability and includes the decommissioning costs in the cost of the item of Property, plant and equipment). The submitted fact pattern assumed that lease payments and decommissioning costs were deductible for tax purposes when paid and identified different approaches in practice.

Before the amendments, it was not clear whether IAS 12 required recognition of deferred taxes for these temporary differences or whether the initial recognition exemption applied. Following the amendments to IAS 12, an entity is required to recognise the related deferred tax asset and liability.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and early adoption is permitted. The amendment is applicable to transactions that occur on or after the beginning of the earliest comparative period presented. It also, at the beginning of the earliest comparative period presented, recognises deferred tax for all temporary differences related to leases and decommissioning obligations and recognises the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date.

The Company's Board of Directors anticipates that the application of the aforementioned amendment will not have a significant impact on the financial statements of the Group.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

**YPF ENERGÍA ELÉCTRICA S.A.**

AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

**2.5.2. Adoption of new standards and interpretations effective as of January 1, 2021**

The Group has adopted new and revised standards and interpretations, issued by the IASB, relevant to its operations and whose application is effective as of June 30, 2021. The aforementioned new standards and interpretations that have become effective during the current period are described below:

• **COVID-19 related rent concessions (Amendment to IFRS 16)**

On May 28, 2020 the IASB published an amendment which provides lessees with an exemption from assessing if a deferring or relieving of the amounts due by a COVID-19-related rent concession is a lease modification. The amendment is effective for annual reporting periods beginning on or after June 1, 2020 and are to be applied retrospectively. Earlier application is permitted.

The aforementioned amendment had not an impact on the interim financial statements of the Group.

• **Interest Rate Benchmark Reform — Phase 2 - Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (the "Reform")**

In August 2020, the IASB issued amendments effective for annual reporting periods beginning on or after January 1, 2021. These amendments address issues when the LIBOR reference rate is effectively replaced and relate to the following key areas:

Financial assets, financial liabilities and lease liabilities: A practical expedient was issued for financial assets and liabilities measured at amortized cost, which are modified as a direct result of the Reform. As a practical expedient, the IASB provides that the modification of these financial instruments be estimated prospectively at the updated effective interest rate. To this end, the change is required to be a direct consequence of the Reform and the basis used to determine cash flows is economically equivalent to the prior basis to the rate replacement.

Hedge accounting: The IASB issued practical expedient in addition to those issued in Phase 1, so that the Reform does not result in the interruption of hedge accounting or the designation of a new hedging relationship. The hedging relationships (and related documentation) must be modified to reflect the effects on (i) the hedged item, (ii) the hedging instrument, and (iii) the risk covered. Any measurement adjustment resulting from the modifications is recognized as part of the ineffectiveness.

Disclosure: Information is required to enable the user to understand the nature and extent of the risks to which the entity is exposed generated by the Reform and how such risks are managed,. It is also necessary to inform on the progress and management of the transition to alternative reference rates.

The only financial assets or liabilities that use the LIBOR as reference refer to the financial debts and interest rate hedging instruments detailed in Note 17 to the annual consolidated financial statements. The Company does not anticipate significant effects at the time of effective replacement of the reference rate considering that a substantial portion of the loans and related hedging instruments will be cancelled by June 2023. With respect to loans with maturity after June 2023, at the date of issuance of these condensed consolidated interim financial statements, the Group's Management does not have available elements to analyze the impact of the aforementioned changes. In addition, in the new loan contracts signed, where applicable, the Company has incorporated clauses to calculate alternative rates to LIBOR if it is not available.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission (“CNV”). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

### 3. SEASONALITY OF OPERATIONS

The demand for electric energy fluctuates according to the season of the year and may be affected significantly and adversely by climatic factors. In summer (from December to March), the demand for electric energy can increase substantially due to the use of air conditioning equipment. In winter (from June to August), the demand for electric energy may fluctuate, due to lighting and heating needs. Consequently, seasonal changes may affect the results of operations and the financial situation of the Group.

### 4. ACQUISITIONS AND DISPOSITIONS

During the six-month period ended June 30, 2021, there were no significant acquisitions or disposals.

On August 5, 2019, YPF EE, Y-Luz Inversora S.A.U., Luz del León S.A. (“Luz del León”) and Wind Power AS, a subsidiary of Equinor ASA, a company established in the Kingdom of Norway, (“Equinor”), entered into an agreement for the subscription of shares in Luz del León, a company 100% controlled by the Company (the “Stock Subscription Agreement”).

The Stock Subscription Agreement established that, subject to the fulfillment of certain precedent conditions, Equinor would subscribe shares in Luz del León in order to obtain a 50% participation equity in such company. The parties had originally agreed that such conditions should be satisfied before December 31, 2019, but this period was successively postponed until April 30, 2020.

A written communication was required from either party to terminate the agreement. On May 28, 2020, the agreement was terminated upon the communication by Equinor to the Company of its intention to exercise this right of termination.

### 5. FINANCIAL RISK MANAGEMENT

The Group’s activities involve various types of financial risks: market risk (including exchange rate risk, interest rate risk and price risk), credit risk and liquidity risk. The Group maintains an organizational structure and systems that allow the identification, measurement and control of the risks to which it is exposed.

The interim financial statements do not include all the information and disclosures on financial risk management. Therefore, they should be read in conjunction with the Group’s annual consolidated financial statements.

There are no significant changes in risk management or risk management policies applied by the Group since the last fiscal year end. See Note 5 to the annual consolidated financial statements.

### 6. FINANCIAL INSTRUMENTS BY CATEGORY

The following tables show the financial assets and liabilities by category of financial instrument and a reconciliation with the corresponding accounts in the financial statement, as appropriate. Since the account “Other receivables” contain financial instruments, as well as non-financial assets (such as taxes receivables and advances to property, plant and equipment), the reconciliation is shown within the “Non-financial assets” column.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

**7. QUANTITATIVE AND QUALITATIVE INFORMATION ON FAIR VALUES**

Fair value measurements

Fair value measurements are described in Note 7 to the annual consolidated financial statements.

As of June 30, 2021 and December 31, 2020, the Group maintained the following financial assets and liabilities measured at fair value in its consolidated statement of financial position:

June 30, 2021		
Financial assets	Level 1	Total
Cash and cash equivalents:		
- Mutual funds	4,691,602	4,691,602
	<b>4,691,602</b>	<b>4,691,602</b>

June 30, 2021		
Financial liabilities	Level 3	Total
Other financial liabilities		
- Hedging instruments	40,194	40,194 <sup>(1)</sup>
	<b>40,194</b>	<b>40,194</b>

(1) Classified as Current liabilities as of June 30, 2021.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

	December 31, 2020	
Financial assets	Level 1	Total
Cash and cash equivalents:		
- Mutual funds	7,657,270	7,657,270
	<b>7,657,270</b>	<b>7,657,270</b>

	December 31, 2020	
Financial liabilities	Level 3	Total
Other financial liabilities		
- Hedging instruments	81,805	81,805 <sup>(1)</sup>
	<b>81,805</b>	<b>81,805</b>

(1) As of December 31, 2020, 5,962 were classified as Non-current liabilities and 75,843 were classified as Current liabilities.

There have been no transfers of financial assets between different fair value hierarchies during the six-month period ended June 30, 2021 and the year ended December 31, 2020.

Fair value of financial assets and financial liabilities measured at amortized cost

The estimated fair value of loans, considering interest rates offered to the Group for its financial loans, amounted approximately to 77,458,167 and 79,949,710 as of June 30, 2021 and December 31, 2020, respectively.

The fair value of other receivables, trade receivables, cash and cash equivalents, restricted cash and cash equivalents, trade payables, lease liabilities and other financial liabilities do not differ significantly from their book value.

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

The following table shows the principal amounts of the results of the investments in joint ventures of the Group, calculated according to the equity method therein, for the six-month periods ended June 30, 2021 and 2020. The Group has adjusted, if applicable, the figures reported by these companies to adapt them to the accounting principles used by the Group for the calculation of the equity method as of such dates:

	Joint ventures	
	June 30, 2021	June 30, 2020
Net (loss) / income	(274,818)	63,774
Other comprehensive income	1,375,062	529,682
<b>Comprehensive income for the period</b>	<b>1,100,244</b>	<b>593,456</b>

The Group does not have significant investments in joint ventures, apart from the investment in IDS.

#### Inversora Dock Sud S.A.

The following table presents summary financial information for investments in IDS as of June 30, 2020 and December 31, 2020:

	June 30, 2021	December 31, 2020
Non-current assets	15,186,638	12,630,257
Current assets	55,744	36,892
<b>Total assets</b>	<b>15,242,382</b>	<b>12,667,149</b>

## 14. CASH AND CASH EQUIVALENTS

For the purpose of the consolidated statement of financial position and the consolidated statement of cash flow, cash and cash equivalents comprise the following items:

	June 30, 2021	December 31, 2020
Mutual funds	4,691,602	7,657,270
Fixed interest deposits	7,458	2,781,652
Cash and bank deposits	4,405,495	3,857,672
	<b>9,104,555</b>	<b>14,296,594</b>

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

Bank balances accrue interest at variable rates based on the bank deposits daily rates. Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash needs of the Group and bear interest at the respective fixed rates for short-term deposits.

Likewise, the restricted cash and cash equivalents line of the consolidated statement of financial position as of June 30, 2021 and December 31, 2020 includes 2,159,153 and 3,741,094, respectively, corresponding to restricted financial assets that are not considered cash and cash equivalents for the purposes of the consolidated statement of cash flow.

## 15. INCOME TAX

The calculation of the income tax expense for the six-month periods ended June 30, 2021 and 2020 is as follows:

	For the six-month periods ended	
	June 30,	
	2021	2020
Current income tax	(2,313,556)	(95,489)
Deferred income tax	(1,933,277)	(1,344,344)
<b>Income Tax</b>	<b>(4,246,833)</b>	<b>(1,439,833)</b>

Under IAS 34, income tax expense is recognised in each interim period based on the best estimate of the effective income tax rate expected at the end of the fiscal year, adjusted by the fiscal effects of certain items fully recognised in the period. The amounts calculated for income tax expense for the six-month period ended June 30, 2021 may need to be adjusted in the subsequent period in case the projected effective tax rate estimate is modified based on new elements of judgment. Considering the current economic context and future prospects, the Group has adjusted the projections used to estimate the effective tax rate. The Group has also reviewed the recoverability of tax losses carry-forwards, not having recorded impairment charges for the six-month period ended on June 30, 2021.

The Group's effective tax rate for the six-month period ended June 30, 2021 was approximately 70.6% and the effective tax rate for the fiscal year ended December 31, 2020 was approximately 39.1%. The change in the effective rate was mainly caused by the change in the income tax rate established by Law No. 27,630, whose effect was fully recognised in the statement of comprehensive income for the three-month period ended June 30, 2021 (see Note 29.3), and by a greater effect of the valuation of non-monetary assets in its functional currency as a consequence of the inflation and devaluation patterns projected at the end of the fiscal year.

As of June 30, 2021, 1,171,938 were classified as deferred tax assets and 13,341,275 as deferred tax liabilities. As of December 31, 2020, 557,598 were classified as deferred tax assets and 10,333,778 were classified as deferred tax liabilities. This classification corresponds to net deferred tax positions of each of the individual companies that are included in these interim financial statements.

Deferred tax assets and liabilities are disclosed net when: a) a legal right to compensate tax asset and liabilities exists and; b) when deferred tax charges are related to the same tax authority and legal entity.

As of June 30, 2021, the Group estimated a tax loss carryforward of 5,088,192 at the tax rate. Deferred income tax assets are recognized for tax loss carryforwards to the extent their set off through future taxable profits is probable. Tax loss carryforwards in Argentina expire within 5 years.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission (“CNV”). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

**YPF** LUZ

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

In order to fully realize the deferred income tax asset, the Group will need to generate taxable income. Based upon the level of historical taxable income and projections for future years in which the deferred income tax is deductible, Management believes that as of June 30, 2021 it is probable that the Group will realize all the deferred income tax assets.

As of June 30, 2021, Group’s tax loss carryforwards at the expected recovery rate were as follows:

Date of generation	Date of expiration	Amount
2018	2023	42
2019	2024	716,442
2020	2025	4,071,519
2021	2026	300,189
		<b>5,088,192</b>

As of December 31, 2018 YPF Energía Eléctrica recorded a tax loss carry-forward and a net income for accounting purposes. Therefore, it has recognized a credit for the Minimum Presumed Income Tax of 167,219, which may be used until 2028.

The evolution of net deferred tax asset and liability as of June 30, 2021 and December 31, 2020 is as follows:

	Deferred income tax liability	Deferred income tax asset
<b>Balance as of December 31, 2019</b>	<b>(5,687,365)</b>	-
Other comprehensive income	15,880	-
Translation effect on business combination assets	(983,832)	-
Reclassification to assets held for disposal (Note 4)	-	134,515
Charge to net income of the fiscal year	(3,678,461)	423,083
<b>Balance as of December 31, 2020</b>	<b>(10,333,778)</b>	<b>557,598</b>
Other comprehensive income	(7,684)	-
Translation effect on business combination assets	(452,196)	-
Charge to net income of period	(2,547,617)	614,340
<b>Balance as of June 30, 2021</b>	<b>(13,341,275)</b>	<b>1,171,938</b>

## 16. LEASE LIABILITIES

The evolution of the lease liability during the six-month period ended June 30, 2021 and the fiscal year ended December 31, 2020 is as follows:

	Lease liabilities
<b>Lease liability as of December 31, 2019</b>	<b>930,855</b>
Finance accretion	104,908
Payments	(140,694)
Translation effect	195,010
<b>Lease liability as of December 31, 2020</b>	<b>1,090,079</b>
Increases	191,665
Finance accretion	46,517
Payments	(122,918)
Translation effect	110,815
<b>Lease liability as of June 30, 2021</b>	<b>1,316,158</b>

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

The following is a breakdown of the lease liabilities recorded by the Group as of June 30, 2021 and December 31, 2020, with identification of the term of the lease and each rates:

Lease term	Annual effective rate used	June 30, 2021	December 31, 2020
Two to three year	9.87%	10,293	35,354
Three to four year	7.75% - 8.35%	188,889	230,900
Four to five years	4.53%	191,665	-
More than five years	9.88% - 10.2%	925,311	823,825
<b>Total</b>		<b>1,316,158</b>	<b>1,090,079</b>

The financial accretion accrued in the six-month periods ended June 30, 2021 and 2020, arising from lease contracts is exposed in the line "Financial accretion" in the line "Financial loss" included in "Net financial results" of the statement of comprehensive income.

As of June 30, 2021 and December 31, 2020, the maturities of the liabilities related to lease agreements are:

	June 30, 2021	December 31, 2020
Up to one year	284,437	227,930
<b>Current lease liabilities</b>	<b>284,437</b>	<b>227,930</b>
One to five years	543,161	436,620
From the 6th year onwards	488,560	425,529
<b>Non-current lease liabilities</b>	<b>1,031,721</b>	<b>862,149</b>
<b>Total</b>	<b>1,316,158</b>	<b>1,090,079</b>

## 17. LOANS

	Interest rate <sup>(1)</sup>	June 30, 2021		December 31, 2020	
		Non-current	Current	Non-current	Current
Negotiable obligations	<sup>(2)</sup>	49,749,055	8,391,675	37,296,657	14,212,033
Loans	<sup>(3)</sup>	16,185,750	18,088,908	21,558,970	14,818,616
		<b>65,934,805</b>	<b>26,480,583</b>	<b>58,855,627</b>	<b>29,030,649</b>

(1) Applicable rate as of June 30, 2021.

(2) Includes 1,755 million that accrue interest at a variable rate Badlar + 4.5% and the remaining balance corresponds to Negotiable Obligations in US dollars that accrue interest at a fixed rate between 0% and 10.24%.

(3) Includes 4,460 million that accrue interest at a fixed rate between 35% and 36.25% and the remaining balance corresponds to bank loans in US dollars that accrue interest at a fixed rate between 6.99% and 8.65%.

The breakdown of the Group's borrowings during the six-month period ended June 30, 2021 and the fiscal year ended on December 31, 2020 is as follows:

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission (“CNV”). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

<b>Balance as of December 31, 2020</b>	<b>87,886,276</b>
Proceeds from loans	21,036,009
Payments of loans	(28,274,033)
Payments of interest	(3,415,696)
Accrued interest <sup>(1)</sup>	3,786,877
Net exchange differences and translation effect	11,395,955
<b>Balance as of June 30, 2021</b>	<b>92,415,388</b>

(1) Includes accrued transaction costs that amount 245,270 and 329,260, for the six-month period ended June 30, 2021 and the fiscal year ended December 31, 2020, respectively, and capitalized financial costs.

(2) Corresponds to the reclassification of the loans of Luz del León S.A. as of June 30, 2020.

The description of the Group's principal loans is included in Note 17 to the annual consolidated financial statements. Updates for the six-month period ended June 30, 2021 and until the date of issuance of these interim condensed consolidated financial statements are described below:

**- Local issuance - Negotiable Obligations**

On May 7, 2019 and June 12, 2019, the Company issued Class I Negotiable Obligations. The placements reached a total amount of US\$ 100 million, at a 10.24% fixed rate with a maturity date on May 2021 and interest payable quarterly since August 10, 2019.

In compliance with the provisions of point 1 of Communication “A” 7230 of the BCRA, on April 9, 2021, the Company was able to refinance 60% of its maturity required by current regulations, accepting all offers of the Par option. for approximately US\$ 45.3 million, which consisted of the exchange of 100% of the Class I Negotiable Obligations for Class VI Negotiable Obligations, and approximately US\$ 14.7 million which corresponds to 83.16% of the total of new cash offers received.

Consequently, on April 16, 2021, the Company issued the new Class VI Negotiable Obligations for a nominal value of US\$ 60 million at a fixed rate of 10.24% maturing in April 2023 and quarterly interest payable since July 16, 2021.

The remaining amount of Class I Negotiable Obligations that was not exchanged was paid upon maturity with its respective interests accrued.

The Company assessed for said refinancing if the conditions were substantially different, considering both qualitative aspects (for example, currency, term and interest rate) and quantitative aspects (if the present value of the cash flows discounted under the new conditions, including any commission paid net of any commission received, and using the original effective interest rate to make the discount, differs by at least 10% from the discounted present value of the cash flows that still remain from the original financial liabilities). Based on this analysis, the Company has not recognized the refinancing as an extinguishment in accordance with IFRS 9 “Financial Instruments”.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

**YPF** LUZ

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

Subsequently, on May 20, 2021, the Company issued additional Class IV Negotiable Obligations for an amount of US\$ 16.9 million at a fixed rate of 2% denominated in US dollars and payable in Argentine pesos at the applicable exchange rate maturing in October 2022 and interests quarterly payable since July 2021. Likewise, in the same date a new Class VII Negotiable Obligation was issued for a nominal value of ARS 1,755 million at a Badlar rate + 4.5% maturing in May 2022 and interests quarterly payable since August 20, 2021.

#### - Citi NY Loans

In March 2018, the Company took out a loan from Citibank NY for a total amount of US\$ 30 million with quarterly interest at 3-month LIBOR rate + 1.6%, and principal bullet repayment at maturity, on August 28, 2018. After such date, the Company extended the maturity of the loan through February 28, 2019, at 3-month LIBOR rate + 2.25%. On the due date, the Company renewed such loan up to February 26, 2021 at 3-month LIBOR rate + 4.875%. Finally, on February 26, 2021 the due date was extended to March 5, 2021 and has already been agreed with the bank the payment as of that date of US\$ 12 million, corresponding to 40% of the outstanding balance, and the extension of US\$ 18 million, corresponding to 60% of the outstanding balance, until March 6, 2023.

## 18. TRADE PAYABLES

	June 30, 2021	December 31, 2020
	Current	Current
Trade <sup>(1)</sup>	1,961,031	1,564,380
Related parties (Note 30) <sup>(1)</sup>	5,716,211	6,102,222
	<b>7,677,242</b>	<b>7,666,602</b>

(1) Trade payables are non-interest bearing and are normally settled on 90-day terms.

## 19. REVENUES

## 23. SHAREHOLDERS' EQUITY

As of June 30, 2021 the shareholders of YPF EE is as follows:

Shareholder	Number of Shares	Participation in the capital stock	Class of Share
YPF	2,723,826,879	72.69218%	A
OPESSA	86,476,112	2.30783%	A
GE EFS Power Investment B.V.	936,767,364	24.99999%	B
<b>Total</b>	<b>3,747,070,355</b>	<b>100.00000%</b>	

## 24. EARNINGS PER SHARE

Earnings per share amounts are calculated by dividing net income for the period attributable to equity holders of the parent by the weighted average number of ordinary shares during the period, net of treasury stock.

The following reflects information on income and the number of shares used in the earnings per share computations:

	For the six-month periods ended June 30,	
	2021	2020
Net income for the period attributable to holders of the parent company:	1,771,006	2,400,007
<b>Weighted average number per share (in thousands)</b>	<b>3,747,070</b>	<b>3,747,070</b>
Basic and diluted earnings per share		
- Basic and diluted (ARS)	0.473	0.641

There have been no transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of issuance of these interim financial statements that may produce a dilution effect.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission (“CNV”). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

## 25. RESTRICTION ON RETAINED EARNINGS

Pursuant to the Argentine General Corporate Law and the corporate bylaw, 5% of the net profit for the year must be allocated to the legal reserve until such reserve reaches 20% of the capital stock.

In this sense, the general Ordinary Shareholders’ Meeting held on April 28, 2021, allocated 260,059 to constitute the legal reserve in the terms of Art. 70 of the LGS, reaching an amount equal to 20% of the capital stock.

In accordance with General Resolution 609 of the CNV the Special reserve RG N° 609 was created, which contains the positive difference resultant from the first-time adoption of IFRS. Special reserve RG N° 609 is not allowed to be distributed in cash or in kind and it can only be dipped into a capitalization or an absorption of any negative balances of retained earnings.

## 26. ASSETS AND LIABILITIES IN CURRENCY IN CURRENCIES OTHER THAN ARGENTINE PESO

The following table provides the assets and liabilities in currencies other than Argentine peso for the financial statement as of June 30, 2021 and December 31, 2020:

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

## 27. MAIN CONTRACTUAL COMMITMENTS AND GUARANTEES GRANTED

Main contractual commitments are described in Note 27 to the annual consolidated financial statements. Below are the estimated commissioning dates for the projects under development:

Project	Company	Estimated Committed Commercial Operations date
Cañadón León Wind Farm	Luz del León S.A.	3Q 2021

## 28. CONTINGENT LIABILITIES

Contingent liabilities are described in Note 29 to the annual consolidated financial statements.

As follows, the description of the developments during the six-month period ended June 30, 2021:

### a) Cañadón León Wind Farm

On February 27, 2019, LDL entered into a Contract for the Assembly and Start-up of the Cañadón León Wind Farm and Services with General Electric International Inc. Suc. Arg. (“GESA”) (“Construction Contract”), an Equipment Supply Contract with GE Wind Energy GmbH (“GEWE”) (“Supply Contract”) and an Integration Agreement entered into with such companies in order to coordinate the Construction Contract and Supply Contract (“Integration Agreement”).

Within the framework of the Construction Contract, Supply Contract and the Integration Agreement, since March 20, 2020, GESA, GEWE and LDL exchanged several letters related to the effects of COVID-19.

In those letters, GESA and GEWE argued that the COVID-19 situation might constitute a change of law and/or force majeure event under the Construction Contract and Supply Contract, respectively, and, therefore, LDL was bound to bear the higher costs and larger terms arising from such situation. LDL rejected that such situations might constitute a change of law event under the corresponding contracts and stated, among other arguments, that GESA and GEWE had to prove compliance with the legal and contractual requirements for such circumstances to constitute an event of force majeure under their corresponding contracts. Besides, LDL stated that should the situation constitute a force majeure event, each party had to face its own costs.

On January 8, 2021, GESA notified LDL of the termination of the Construction Contract for alleged essential and deliberate breach of the Construction Contract by LDL derived from the non-approval of certain change orders in relation to the recognition of higher costs caused as a result of the COVID-19 pandemic, climate issues and other pending claims regarding the project. On this occasion, GESA estimated that the higher costs caused by the COVID-19 pandemic amounted to an approximate amount of US\$ 12,760,000.

Given this notification, LDL supports once again its position in relation to said claims according to the grounds previously detailed. Due to the above mentioned, LDL ordered GESA to retract the notification of the resolution issued, being that uncaused, abusive, unfounded and contrary to the law, and, likewise, it ordered that GESA proceed to continue with the execution of the works to complete the work in a whole in accordance with the provisions of the Construction Contract, under penalty of making it responsible for all damages that said resolution could cause to LDL.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

YPF LUZ

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

For its part, GESA ratified the notified contractual resolution, having made it effective on January 25, 2021. It is important to note that, although GESA has ratified the resolution without cause, LDL agreed that GESA's subcontractors continue with the work in order not to affect the current schedule as explained in the following paragraph.

In this sense, on January 26, 2021 and April 9, 2021, Conciliation and Work Continuation Agreements were signed between LDL and Grid Solutions Argentina S.A. ("GRID") and Electrificadora del Valle S.A. ("EDVSA") respectively, by means of which the parties agreed to resolve all the disputes of said subcontractors with the main contractor of the work and arrange the direct hiring of GRID and EDVSA for the completion of the works.

Likewise, without prejudice to maintaining and ratifying LDL's position regarding the lack of legitimacy of the resolution provided, LDL has agreed with GESA an independent service contract that ensures the mechanical completion of the wind turbines and commissioning services for the wind farm.

Finally, it should be noted that the mentioned situation will not generate negative consequences under the contract of the project's financing as long as the contract resolved by GESA is being replaced by other contracts with subcontractors that cover the necessary scope to the termination of the work in progress within the due dates agreed with the financial debtors. To that end, these debtors had granted an original due date which past due on April 1, 2021 and it was consecutively postponed until August 31, 2021, to analyse the contractual clauses related to the project. This due date can be renewed so LDL does not neglect its contractual commitments. Additionally, it should be noted that for a potential breach to occur that could accelerate the due dates of LDL's loans, it is required a written communication by the debtor according to the established conditions in the contract. Therefore, in the Company's Board of Director's view, the payments of capital and its respective interests will be made according to the schedule originally fixed in the contract, as timely amended.

Under the executed renewable power purchase contracts, energy off-takers were notified about the existence of a force majeure event as a consequence of the health crisis caused by the coronavirus pandemic, which might affect the scheduled commercial operation date of the wind farm. On October 16, 2020, LDL sent YPF S.A. an offer letter in which it proposes to modify the committed commercial operation date, setting it for April 30, 2021. Likewise, in accordance with the terms and conditions of the renewable purchase contract, on April 19, 2021 LDL notified YPF S.A. the extension of the COD, estimating it for August 31, 2021. Notwithstanding this and in spite of not having reached the commercial operation date of the project, on August 4, 2021, YPF S.A. agreed in writing to not execute its right to terminate the purchase contract for this reason, until March 31, 2022.

In relation to the PPA with CAMMESA, by virtue of LDL's adhesion to Resolution SGE No. 52/2019 of the Secretariat of Energy that established the extension of the scheduled commercial operation date and the subsequent notes of the Secretariat of Energy that ordered the suspension of the calculation of the periods corresponding to the execution of the contracts of the RenovAr Programs that had not been commercially enabled before March 12, 2020, no penalties will be incurred as long as the COD is reached on or before January 30, 2022, except that due to the COVID-19 situation (see Note 31), suspensions or extensions of additional terms are granted.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

At present, the Company's Management cannot estimate the final impact in the financial statements of the previously described situation. The Company will recognise the potential impacts on the financial statements derived from such situation as they can be reasonably estimates and quantified.

#### **b) High Voltage Line 132kV Santa Cruz Norte Caleta Olivia**

The Cañadón León Wind Farm will be connected to the Argentine Distribution System through the construction of a 132-kV-line and the expansion of Santa Cruz Norte – Caleta Olivia Transformer Station.

On May 21, 2019, the Company entered into a construction and expansion contract with TEL3 S.A. ("TEL3") for the construction of the Work.

On March 20, 2020, TEL3 notified the Company about a force majeure event as a consequence of the coronavirus pandemic and the restrictions imposed under national, provincial and municipal regulations. It also informed that for such reasons, the performance of on-site works and the construction schedule might be affected and that, due to the health requirements ordered by government authorities, the costs established in the contracts might be modified, claiming the higher costs incurred as a consequence thereof.

The Company requested TEL3 to do comply with the legal and contractual requirements for the situation to constitute a force majeure event and to prove the impact of the events on TEL3 obligations.

On January 29, 2021, the Company and TEL3 reached an agreement by means of which the parties reconciled all pending disputes among themselves regarding claims derived from the COVID-19 pandemic, TEL3 waived to make any claim in relation to what is previously exposed.

On March 26, 2021, TEL3 submitted a new change order under the Contract for a total sum of \$ 25.8 million due to the higher costs incurred from November 1, 2020 to February 28, 2021 as consequence of the implementation of sanitary measures for the prevention of COVID-19 as well as the sanitary requirements imposed by the government authorities.

At present, the Company is evaluating the concepts and grounds used by TEL3 in order to decide about the change order request.

Finally, it should be noted that on June 27, 2021, the work period of industrial operation took place, after which the final tests for the commissioning of the facilities are concluded with satisfactory results.

#### **c) Los Teros II Wind Farm**

Los Teros II Wind Farm reached its operation date of the total of wind turbines on June 3, 2021. Therefore, the committed deadlines were accomplished in the framework of assigned dispatch priority according to Resolution S.E.E. No. 281/2017, as this deadlines were extended.

At present, the Company and General Electric maintain cross-claims regarding higher costs linked to delays in the completion of the works as a consequence of COVID-19 and others; and on the other hand the application of contractual penalties accrued for not reaching the contractually committed reception date. The parties are negotiating the related amounts in order to reach an agreement. The Company estimates that the resolution of these claims will not generate a significant negative impact in the Group's financial position nor in its net income.

YPF LUZ

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS  
AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

### 29. REGULATORY FRAMEWORK

Main regulations and others are described in Note 30 to the annual consolidated financial statements. Updates for the six-month period ended June 30, 2021 are described below:

#### 29.1 Regulatory framework for the electric industry

On March 10, 2021, through Resolution SE 169/2021, the Secretariat of Energy resolved the award of bids in Round II of the GasAr Plan to deliver natural gas during the winter months for the period 2021-2024, for a price of 4.73 US\$/MMBTU. Likewise, by means of the clarifying Circular No. 1 it had been defined that for the buyer the amount of the Take or Pay will be 75% per month, multiplied by the number of days of the month. Gas that could not be made available or that was not taken due to a major cause, or those that the supplier has not been able to make available due to force majeure or unscheduled maintenance, must be deducted from these quantities.

#### Resolution SE-MEC No. 440/2021

On February 26, 2020, the Secretariat of Energy published in the Official Gazette the Resolution SE No. 31/2020 that adjusts the remuneration criteria for the generation not compromised in any kind of contract, under the terms economically reasonable, efficient and that are assignable and/or transferable to demand.

Through this resolution, it was established that all concepts that are remunerated to the included generators will be nominated in Argentine pesos, and will be updated monthly according to the IPC (60%) and IPIM (40%) published by INDEC.

This update was suspended until further decision due to the economic situation generated by the declared pandemic.

On May 21, 2021 the Resolution No. 440/2021 of the Secretariat of Energy was published in the Official Gazette in which the remuneration established by Resolution No. 31/2020 is adjusted in approximately 29% with effectiveness since the economic transactions corresponding to February, 2021.

In order to perceive the remuneration defined in the mentioned regulation, the Generation Agents that are reached by it, will have to abandon through Note to CAMMESA any administrative claim or legal process in course raised by them against the National State, the Secretariat of Energy and/or CAMMESA and any related administrative and/or legal claim and resign to any future claim in this regard.

On June 11, 2021, the Company presented the Note mentioned in the previous paragraph. The retroactive effect corresponding to the elapsed period between February to May 2021 for the application of Resolution No. 440/2021 rises to approximately 355,794 and was accounted in the Energía Base line within the item Revenues of the condensed interim consolidated statements of comprehensive income for the six-month period ended June 30, 2021.

#### Resolution No. 551/2021

Under the framework of MATER there are projects in execution with assigned dispatch priority that present delays or does not show any advance at all. As a consequence of this, on June 15, 2021, the Resolution No. 551/2021 was issued and it establishes measures that tend to the conclusion of the projects that are not yet

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

YPF LUZ

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

operative, so they do not retain any dispatch priority, enabling the transport capacity to be assigned to other projects.

From this, it is performed a restructuring of order and administration of assigned dispatch priorities and to be assigned in the future, reviewing the criteria of demand of established guarantee. The Generators Agents with assigned dispatch priority under MATER in the framework of Resolution No. 281/2017 from the former Ministry of Energy and Mining and amendments, with projects with commercial operation or in construction, will be able to choose until August 27, 2021, to adhere to the terms established under the new Resolution making payments that correspond for extensions, according to Resolution No. 551, retroactively, since the deadline of the original declared period and until the commercial operation date, applying the payments that would had been performed under the previous regime as a down payment of that is established under the mentioned Resolution.

We emphasize that the Company decided that it will benefit from the aforementioned regime in order to maintain the priority of dispatch appropriately assigned and since the new fine regime is retroactively applied and would mean a lower cost for the Company. However, this Resolution has not had a significant impact on the Group's financial statements.

#### 29.2 Exchange Market Regulation

On February 25, 2021, the BCRA issued Communication "A" 7230, extending point 7 of Communication "A" 7106 for those with capital maturities scheduled between April 1 and December 31, 2021. The refinancing plan must be submitted to the BCRA by March 15, 2021 for capital maturities scheduled between April 1 and April 15, 2021. In all other cases, it must be presented at least 30 days before the maturity of capital to be refinanced.

In addition, since April 1, 2021, the amount per calendar month by which the debtor would access the foreign exchange currency market for the cancellation of principal of indebtedness covered by point 7 of Communication "A" 7106 rises from US\$ 1 million to US\$ 2 million.

Finally, the presentation of the restructuring plan will not be necessary to cancel:

- Indebtedness originated since January 1, 2020 and whose funds have been deposited and settled on the local exchange market,
- Indebtedness originated since January 1, 2020 and constituting refinancing of capital maturities after that date, to the extent that refinancing has enabled to achieve the parameters of point 7 of Communication "A" 7106.
- The remaining maturities already refinanced while such refinancing has enabled to reach the parameters set out in point 7 of Communication "A" 7106.

The Group had two financings affected by communications of the BCRA: (i) a financial loan with Citibank NA for a remaining value of 30 million dollars maturing on March 5, 2021 affected by Communication "A" 7106 (for which 60% was extended until March 6, 2023) and; (ii) Class I ON Notes for a remaining value of US\$ 100 million maturing on May 10, 2021 affected by communication 7230 (for which Negotiable Obligations Class VI by 60% of the outstanding balance were issued with maturity on April 16, 2023).

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

#### 29.3 Tax Amendment

On June 16, 2021, Law No. 27,630 was issued, approved by the National Executive Branch through the Decree 387. One of the main changes is the instauration of a progressive scale of income tax based on accumulated net taxable income of the Company. The amounts of this scale will be adjusted annually, since January 1, 2022 according to the variations of IPC provided by INDEC corresponding to October of the year prior to the adjustment. The adjusted amounts will be applicable for subsequent fiscal years beginning after this. The progressive scale is applicable also for permanent establishments, notwithstanding the additional rate of 7% at the moment of remitting incomes to their parent company.

This dispositions of this Law are applicable since June 16, 2021 and are effective for fiscal years beginning since January 1, 2021, inclusively.

The main impact of this legal change is (i) the measurement of deferred income tax assets and liabilities (including accumulated tax loss carryforward), since they have to be recognised applying the tax rate in force at the date in which the differences between accounting and fiscal values and tax loss carryforward will be reverted or used and (ii) the estimate of the provision for income tax payable. The full impact of the regulatory change has been recognized in the three-month period ended June 30, 2021 in the condensed interim consolidated statements of comprehensive income.

Hereinafter, the net deferred income tax assets and liabilities, and the current income tax, as of June 30, 2021, was measured at an approximate rate of 35%.

#### 29.4 Other Regulations

- CNV Regulatory Framework (N.T. 2013)

In accordance with Section 1, Chapter III, Title IV of the General Resolution, the notes to the interim condensed consolidated financial statements for the six-month period ended June 30, 2021, disclosing the information required by the Resolution in the form of Exhibits, are detailed below.

Exhibit A – Fixed Assets	Note 8 Property, plant and equipment
Exhibit B – Intangible assets	Note 9 Intangible assets
Exhibit C – Investments in shares	Note 11 Investments in associates and joint ventures
Exhibit D – Other Investments	Note 6 Financial instruments by category
Exhibit E – Provisions	Note 8 Property, plant and equipment
Exhibit G – Assets and liabilities in foreign currency	Note 26 Assets and liabilities in other currencies than Argentine peso
Exhibit H – Expenses by nature	Note 20 Expenses by nature

(1) Includes the recognition for the excess of budgeted gas costs according to Plan GasAr.

Regarding the business of generation and sale of electricity, the Company's main customer is CAMMESA, an entity controlled by National Government. Taking into consideration that National Government is also YPF's controlling shareholder, CAMMESA is considered a related party.

**Remuneration of the Administration**

During the six-month periods ended June 30, 2021 and 2020, the remuneration to key executives amounted to 181,330 and 111,986, respectively, including short-term and long-term benefits and the only benefits granted to key executives.

**31. COVID-19 PANDEMIC IMPACT**

On March 11, 2020, the World Health Organization declared the Coronavirus (Covid-19) outbreak a Pandemic, given its fast propagation worldwide, affecting 190 countries. Most governments are implementing restrictive actions to contain its propagation.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## YPF ENERGÍA ELÉCTRICA S.A.

**YPF** LUZ

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

On March 12, 2020, in Argentina, where the Company operates, Argentina's Executive Branch (PEN) issued Decree No. 260/2020, as amended, establishing the health emergency to control the crisis caused by the COVID-19, and on March 19, 2020 the PEN issued Decree No.297 declaring the mandatory and preventive social isolation, which was extended consecutively until the mandatory and preventive social distancing was effective, which is still in force. Power generation was declared an essential service and was allowed to operate since the beginning of the isolation, while electric infrastructure works were declared essential since April 6, 2020. Among the measures derived from the pandemic were included, among others, the prohibition of dismissals without cause, or for reasons of work reduction or force majeure, general restriction to the free circulation of persons not engaged in essential activities, general travel restrictions, visa suspensions, partial or total closing of public and private institutions, suspension of sport events and restrictions to museums and tourist attractions.

Through Decree 576/2020, on June 29, 2020 the PEN determined more restrictive measures in the area of the City of Buenos Aires and surroundings (AMBA) and allowed the provincial governments to release or restrict activity according to certain parameters of evolution of Covid. Although all the provinces and cities have allowed the activity of essential services, many apply restrictions or periods of isolation that hinder the normal development of the activities of the Company and its contractors.

Since the month of April 2021, due the continuity of the pandemic and in a context of sustained increase in cases, the National Government established a set of general prevention measures and a classification of risk areas based on epidemiological criteria with the unavoidable objective of reducing the circulation of the virus and thus decompressing the health system. Based on the indicators of "reason" (increase in cases in the last 14 days), "incidence" (number of cases over population) and "occupation of ICU beds", four situations are established in relation to risk, which order the prevention measures in the territory in areas of: Low, Medium, High risk and Epidemiological and Sanitary Alarm. In this way, prevention parameters common to the entire national territory and new measures are established based on the established classification. Thus, depending on the epidemiological and sanitary risk, the parties or urban conglomerates will have different restrictions for mobility and commercial activity.

These measures due to the Covid-19 pandemic are having a significant impact on national, regional and global economy, due to difficulties in the supply chains and the significant increase of economic uncertainty, evidenced by a higher volatility in asset prices, exchange rates and a decline in long-term interest rates.

Notwithstanding that as of the date of issuance of these interim condensed consolidated financial statements, there have not been significant present impacts, there is still uncertainty regarding the final impacts that these events could have on the assets and financial position of the Company, on its results or its cash flows. Hence, the Company's Management considers that the situations described above do not impact the application of the accounting policies corresponding to a going concern in the preparation of the interim condensed consolidated financial statements as of June 30, 2021.

The potential impacts from the uncertainty previously mentioned that might be expected on the Group's activity are the following:

- Decrease in our power generation sales as a consequence of a general decline in electric power demand.
- Collection difficulties from power distribution companies, by CAMMESA affecting its capacity to meet its payment commitments with the Group.

English translation of the consolidated financial statements originally filed in Spanish with the Argentine Securities Commission ("CNV"). In case of discrepancy, the consolidated financial statements filed with the CNV prevail over this translation.

## **YPF ENERGÍA ELÉCTRICA S.A.**

**YPF LUZ**

### NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS AS OF JUNE 30, 2021 AND COMPARATIVE INFORMATION

---

(Amounts expressed in thousands of Argentine Pesos, except as otherwise indicated)

- Impairment in the financial position of the Group's wholesale customers, adversely affecting their capacity to pay the accounts due to the Group and, therefore, affecting the Group's financial position.
- Delays in the execution of our development projects due to mobilization problems faced by our contractors and possible higher construction costs, affecting the Group's financial condition and exposing the Group to the potential claims and penalties.
- Difficulties in the supply chain, due to the suspension in the production of the basic supplies used by the Company in its production process and impact on associated expenses.

The Management of the Company has implemented health measures - with Covid-19 prevention protocols applicable both for operations and work projects - to guarantee continuity of its activities, ensuring production and seeking minimization of costs, optimization of current contracts and securing earnings. The Group's Management will conduct an assessment to analyse how the aforementioned situations and possible future events might impact on its assets and financial position, the results of its operations and the respective cash flows.

## **32. SUBSEQUENT EVENTS**

As of the date of issuance of these condensed interim consolidated financial statements, there have not been other significant subsequent events whose effect on the Group's financial position or results of operations as of June 30, 2021, or its disclosure in a note to these interim condensed consolidated financial statements, if corresponds, have not been considered in accordance with IFRS.
